RESTORE THE LOWER YUBA FOR FISH & PEOPLE

Wild salmon are in trouble. Drought, dams, degraded habitat and climate change are driving the West Coast's most iconic fish closer to extinction. Fortunately, the Yuba River offer hopes for saving wild salmon, and steelhead trout, too.

Join SYRCL and our allies in fighting for wild salmon. Help us tell newly elected Governor Gavin Newsom to make salmon recovery a priority and to immediately support large-scale habitat restoration projects on the Lower Yuba River.

Go to YubaSalmonNow.org and sign the letter.
