

Wild & Scenic School Program K-2 Curriculum Overview

Program Theme: Working Together

Module 1: How Humans and Animals Relate

Accompanying Film: Imara

Description: Students will explore the physical structures of animals and what key function different body parts serve for the survival of the animal and its offspring. Students will learn how humans have mimicked animal adaptations to help them solve a problem. For example, humans wear wool coats to stay warm.

Standards: 1-LS1-1,1-LS1-2

Module 2: We Don't Need More Stuff!

Accompanying Film: Plastic Pandemic

Description: After watching the short PSA Plastic Pandemic, students will learn the story about plastic, where it comes from, and where it goes. Students will be able to categorize the 4R's of trash sorting; Reduce, Reuse, Recycle, and Rethink. Lastly, students will be able to reuse plastic to create something new!

Standards: K-ESS3-3, 1-LS1-1
