

WILD & SCENIC® FILM FESTIVAL

Waiting on Approval for Tour - Not Available to Program yet

	Film Name	TRT	Genre	Region	Synopsis
1	A Fire for All	2	Energy / Climate Change	🇺🇸 California	The story of why there are mega-fires in California's Sierra Nevada Forest and how to prevent them. A 2 minute primer in understanding the forest ecology and it's long relationship with fire and humans.
2	A Flyfishing Refugee	6	Water / River Issues	Pacific Northwest	A Polish dissident discovers the true reason rivers and salmon figure so prominently in his life.
3	A River Reborn	27	Environmental Justice	🇺🇸 Pennsylvania	Abandoned for generations amidst in the ruins of coal country, the Little Conemaugh river and the communities it flows through are poised for an unlikely rebirth.
4	A Wild Independence	25	Activism	🇺🇸 California	How naturalist John Olmsted fulfilled a friends' request and turned an abandoned mining ditch in California's Gold Country into the first wheelchair nature trail in the United States.
5	After Ice	12	Energy / Climate Change	🇮🇸 Iceland	Glaciers of Southeast Iceland reflect our past and reveal our future.
6	An Alaskan Fight	8	Water / River Issues	🇺🇸 Alaska	Running becomes a metaphor for the conservation effort to protect Alaska's Bristol Bay.
7	An Imperfect Advocate	21	Activism	🇺🇸 Oregon	A jet-setting mountain climber confronts his carbon footprint while becoming an activist in the fight against climate change.
8	Big Medicine	15	Land Preservation	🇺🇸 Nevada	The activities of Friends of Black Rock High Rock: helping to preserve a stunning National Conservation area in Northern Nevada
9	Bodies of Water	9	Oceans	🇧🇸 Bahamas	For many Bahamians, the ocean is home. From these waters comes sustenance, opportunity, and identity. But this relationship is also complex and paradoxical.
10	Camp Yoshi	10	Food	Pacific Northwest	When Rashad Frazier moved to the Pacific Northwest, his love of food merged with his love of adventure. Inspiring his vision of Camp Yoshi.
11	Can't Beat This Place for Fun	14	Adventure	🇺🇸 Arizona	Flagstaff's Fretwater Boatworks defines the process, and deep conservation legacy, of building Grand Canyon dory's - with fun at every bend.
12	Civil Society: Not On Our Soil - A Climate Justice Reality	8	Environmental Justice	🇺🇸 South Africa	The community of the notoriously polluted South Durban fights for a democracy that is for the people - and by the people.
13	Community: Not On Our Soil - A Climate Justice Reality	8	Environmental Justice	🇺🇸 South Africa	Marginalized and excluded communities of Cape Town fight for their right to clean water, and work together for community-led alternatives to sustainability.
14	Cormie: The Pickpocket Cormorant	10	Wildlife	Pacific Northwest	A rescued cormorant will go to any lengths to help her wildlife center stay afloat.
15	CRACKED	5	Energy / Climate Change	🇹🇷 Turkey	A little girl tries her best to help nature in a drought stricken village.
16	Craig, America	14	Water / River Issues	🇺🇸 Colorado	A small town, like so many, grapples with evolving from a fossil fuel past to a more sustainable future

17	Dear Pippa	8	Adventure	 Vermont	A woman shares with her daughter what she has learned about herself through motherhood.
18	Don't Feed the Coyotes	30	Wildlife	 California	Across neighboring territories and over four years, Coyote on the Block observes the intertwined lives of San Francisco's urban coyotes. Told through two animals and the starkly different researchers observing them, it's part-human, part-nature and meditates on the lines we've drawn between the two.
19	Denizens of the Steep	10	Wildlife	 Wyoming	Denizens of the Steep explores the intersection of backcountry recreation and the conservation of an iconic species of big horn sheep in Grand Teton National Park.
20	DURGA: Forging a New Trail	20	Adventure	 Nepal	In Nepal, a young woman pursues a different path—changing not only the societal and familial expectations of herself, but for future generations.
21	El Mago Georges	4	Adventure	 Argentina	We aren't only created with free will, but also with the responsibility to listen to our gut feelings and follow our intuitions.
22	Finding Gulo - The Movement to Save Wolverines	27	Wildlife	Western US	"Finding Gulo" follows a backcountry ski guide & field biologist who set out to document an elusive population of wolverines. This short film celebrates the power of citizen science to protect endangered wildlife in the face of climate change.
23	Finding Salmon	2	Water / River Issues	Pacific Northwest	Follow 11-year-old, Keyona, into a wondrous world of trees, water, and friendly fish... and find the spirit of Salmon Watch, a program that connects Oregon youth to their backyard river ecosystems.
24	Friendship Garden	5	Wildlife	Animation	Fiona Fox invites bees into her garden. Her curiosity, kindness, and determination enable her to create a pollinator-friendly habitat.
25	Ghost Ponds	12	Water / River Issues	Europe	A grassroots movement seeks to reverse biodiversity loss by recovering a lost feature of the landscape... ghost ponds.
26	Goodbye Home	6	Wildlife	Australia	As bushfires approach a small, Australian coastal town, animal and human families prepare to evacuate their homes.
27	Guardians of the River	14	Environmental Justice	Pacific Northwest	Klamath River indigenous leaders and youth fight to free their river from life-killing dams, restoring salmon, economy, and culture.
28	Hidden Wild	26	Adventure	Florida	Join three Floridian students on an expedition to explore the wilderness hidden in their own backyards.
29	I Am Cheo	8	Energy / Climate Change	South West US	Cheo wants you to be the change we want to see to protect Mother Nature.
30	If I Tell Them	12	health	Pacific Northwest	James Sampsel, a plein air painter and fly-fishing guide, comes to terms with his past and a bi-polar diagnosis that hangs over his future.
31	If You Give a Beach a Bottle	5	Oceans	Alaska	Sketching the tangled web of Marine Debris on Alaska's remote beaches.
32	I'm a Child	3	Adventure	Animation	I'm a Child leads us on a whimsical journey to understanding the importance of coming to grips with the Climate Crisis.
33	It's Bean Too Hot	25	Food	Costa Rica / Tanzania	Climate change is affecting coffee production worldwide. If we don't act now, coffee could soon be gone forever.
34	Keepers of the Shy Place	14	Oceans	 Alaska	An Alaskan island community battles marine pollution with an indigenous solution.
35	Land of the Yakamas	9	Environmental Justice	Pacific Northwest	"Land of the Yakamas" is a short film that focuses on the importance of the ancestral lands surrounding the general Nchi'Wana (Columbia River) area, as well as some of the environmental challenges the communities of the region face.
36	Life in the Slow Lane (A Snail Odyssey)	3	Wildlife	NA	One snail's epic adventure as he tries to cross a dangerous garden in search of dinner.
37	Maneuvers	4	Adventure		"Maneuvers (Manöver)" is an experimental animation combining skiing with stop-motion animation

38	Mission Creek Restoration Initiative	6	Water / River Issues	BC, Canada	Mission Creek is one of the Okanagan Valley's most important waterways, supplying a quarter of all inflow waters to Okanagan Lake. Running through Kelowna, BC, Canada, the Creek holds significant ecological, historical, and cultural value beyond just Kelowna, affecting upstream and downstream watersheds and communities across the Central Okanagan. This film highlights the restoration efforts being undertaken by the Mission Creek Restoration Initiative (MCRI), to return the creek to its natural flow, restore essential habitat for wildlife, and provide an active corridor and essential greenspace for residents and visitors each day.
39	My Last Day of Summer	8	Adventure	Pacific Northwest	A young rider finds adventure in animation.
40	Nature's Fear Factor	53	Wildlife	Mozambique	Can rare African wild dogs reintroduced to Mozambique's Gorongosa National Park use fear to help the devastated ecosystem rebound?
41	New Roots	17	Health	BC, Canada	A young couple explores how farming connects their past and present as they educate their children and community about locally grown food.
42	Ocean to Idaho	27	Water / River Issues	Idaho	Ocean to Idaho follows the disappearing salmon migration 850 miles from Oregon's coast to Idaho's wilderness.
43	One Star Reviews	2	Land Preservation	USA	They say National Parks are America's greatest idea. Some of the most beautiful and sacred places in all the world. Well, for some people... there's still room for improvement!
44	Oshkigin: Spirit of Fire	16	Environmental Justice	Midwest	Oshkigin - Spirit of Fire shows the ways that traditional fire uses can reconnect us with the land and preserve the natural world.
45	Other Side of the Hill	29	Energy / Climate Change	Oregon	In a time of unprecedented cultural divide between rural and urban Oregon, we find common ground in an urgency to address a changing landscape.
46	Our Own House	22	Activism	Belize	One small town. One big global problem.
47	Planktonium	15	Oceans		Planktonium is a short film about the secret universe of living microscopic plankton, invisible to the naked eye.
48	Protecting the Monarch Butterfly	4	Land Preservation	New York	Land restoration near Niagara Falls is giving refuge to a beloved butterfly and setting an example for wildlife protection everywhere.
49	Rebuilding Butte	26	Energy / Climate Change	California	A heartfelt tiny home building project in the wake of the deadliest fire in California history, the 2018 Camp Fire.
50	ROOTED IN CULTURE: OREGON'S WILD CAMAS	3	Sustainable Living	Oregon	Oregon's beauty is not just rooted in its incredible landscape, it is the roots themselves that hold treasures.
51	Sea Creatures Strike Back	4	Oceans	Hawaii	In this news broadcast parody, sea creatures "strike back" by subjecting humans to the same problems that we cause in the marine environment.
52	Sea Gypsies: The Plutonium Dome	35	Energy / Climate Change	Marshall Islands	The history of our planet can be divided into subdivisions of geologic time, epochs. The current epoch we have recently entered is named the Anthropocene and is defined as the human age, where the primary forces that will shape the geologic world are driven by mankind, to our own detriment. This is a story about an expedition to the birthplace of the Anthropocene which began in 1952 at the dawn of the nuclear age, with the testing of the first hydrogen bomb - Ivy Mike - on a small coral atoll in the middle of the Pacific Ocean.
53	Shaba	12	Wildlife	Kenya	After losing her mother to poachers, an unruly elephant named Shaba is rescued to the mountains of northern Kenya to be rehabilitated back to the wild. The women keepers of Reteti Sanctuary have a maternal solution to soften Shaba's heart.
54	The Bat Woman and Bat Man of India	7	Wildlife	India	The Bat Woman' and 'Bat Man' of India are on a strange and perilous journey to save India's critically endangered bats.

55	The Beast of Our Time	29	Wildlife	Western US	The Beast of Our Time is a fifty-years-in-the-making, unflinching inquiry into the relationship between climate change and grizzly bears.
56	The Bird Nerds of Mono Lake	6	Wildlife	California	I have yet to meet two bigger bird nerds than Pete and Ashli. Peter Bloom is a raptor ecologist that has not only been working alongside California State Parks, banding ospreys at Mono Lake Tufa State Natural Reserve for upwards of 12 years, but has been banding and working on bird conservation for over 50 years. Ashli Lewis is a wildlife biologist out of the Sierra District who has learned from and worked alongside Pete for many years, and now the two come together every year to band osprey chicks for important research.
57	The Facemask	3	Environmental Justice	Costa Rica	A facemask whisks away through the skies, traversing across the city on its way to the coast, threatening to end its journey at the bottom of the ocean.
58	The Fish & The Flame	14	Wildlife	Colorado	When a supposedly extinct fish resurfaces in the path of oncoming wildfire, a Colorado biologist braves the flames on a daring rescue mission.
59	The Fog of Big Sur	3	Land Preservation	California	A time lapse film of the dynamic and breathtaking fog in Big Sur, California.
60	The Ghost	16	Adventure	United States	Heather Anderson has held the most coveted thru hiking records on earth. She reflects on her journey in this intimate portrait.
61	The Hunt for the Asian Giant Homet	12	Wildlife	Washington	Scientists race to stop the spread of a new invasive species.
62	The Interconnectedness of All Living Things	10	Energy / Climate Change	California	Artist Georgia Hodges paints a mural paying homage to life on earth and to H.R. 109, the Green New Deal Resolution.
63	The Land of Griffons	10	Wildlife	Italy	A conservation story of the last native Italian colony of griffon vulture, in a land where shepherds and griffon vultures have to cohabit for the mutual need.
64	The Last Last Hike	20	Sheri Tansey's 60 year career	East Coast	83-year-old Nimblewill Nomad is about to become the oldest person to thru-hike the Appalachian Trail.
65	The Magical Forest and the Things	4	Land Preservation	NA	Dave and Callie (6 years old) spent the first three weeks of Covid19 distancing in a make-shift shared studio now called the Quarantine Attic. It's an original story depicting a critical yet child-like observation of human consumption habits and the social reinforcements that influence it.
66	The New Environmentalists - From Accra to Eleuthera Island	31	Activism	NA	The New Environmentalists share a common goal – safeguarding the Earth's natural resources from exploitation and pollution, while fighting for justice in their communities.
67	The Tree Carvers	9	Wildlife	French Polynesia	A Polynesian woodcarver and his son use an energy called "Mana" to bring out the spirits within a tree stump.
68	The Voice of a River	11	Water / River Issues	California	Mark Dubious' act of sacrifice for the Stanislaus River is the simplest, most effective form of activism, one rooted in love.
