## Farming Stories

### A Farm Goes Wild

TRT: 9 MINUTES

Derek Gow is a farmer in western England, or at least he was. Now, he's using his decades of experience in conservation to return his land to its original state, as a healthy, biodiverse ecosystem. He's also breeding native species now rare in Britain for reintroduction across the country.

### Café Y Aves

TRT: 14 MINUTES

Coffee farms in Colombia exist in some of the most biodiverse ecosystems on the planet. However, agriculture is putting pressure on that biodiversity that is causing catastrophic declines in migratory bird species. Farmers are working alongside Smithsonian scientists to come up with solutions that will be better for birds AND coffee.

### The Future of Healthcare is Farm Fresh!

TRT: 5 MINUTES

The Future of Healthcare is Farm Fresh! Working with Chapa De Indian Health, Sierra Harvest is finding new ways to deliver nutrition education. Featuring Food Love Farm Summer Camp campers and local physician, Dr. Glenn Gookin, The Future of Healthcare is Farm Fresh poses the question: what if we could change our children's relationship with food?

### Wrought

TRT: 20 MINUTES

With timelapse videography of rotting in action, Wrought creates an intimate, immersive world where decay can be beautiful, tender and even surprisingly human.

## Farming Stories

### Bluebird Sky

TRT: 23 MINUTES

Bluebird Sky peeks into the lives of Danny and Annaliese in their second year of operation in Boulder County, Colorado. Their story is one example of young farmers entering into this aging profession. The film explores the challenges of making it as farmers, the value of supporting a local food system, and how to approach long term change.

TRT: 16 MINUTES

### Groundwork: A Family Journey into Regenerative Cotton

Follow as the Kahle family breaks the cycle of generational health issues by revolutionizing their farming practices. Driven by a deep commitment to their family and community's well-being, the Kahles bring revelatory science practices to combat years of problematic, status-quo methods of farming.

### Abundance: A Farmlink Story

TRT: 23 MINUTES

During the largest food crisis in a century, a group of college students catalyze a national movement to end hunger in the United States. Within months, the project scales larger than anyone could have imagined and the students find themselves on the front lines of fighting hunger. As food bank lines grow across the country and college finals approach, do the students have what it takes to create a long term solution?
