

Danny Macaskill: Do a Wheelie

TRT: 6 MINUTES

In the summer of 2021 Danny MacAskill put out a call to action to his 3.5 million social media fans asking them to #WheelieWithDanny. Riders and fans applied from around the world to feature alongside Danny in his latest project from Five Ten and Cut Media. Join Danny MacAskill and a host of friends as he pushes the boundaries of the humble wheelie and learns a thing or two from friends old and new.

Brave Girl

TRT: 8 MINUTES

Brave Girl is a strong young adventurer, who with the help of her grandpa is beginning her journey of finding out what it takes to climb mountains. Even though she's only 6, she has an unwavering ambition to climb the biggest mountains in the world, starting with the ones in her backyard in Wyoming.

JoJo - A Toad Musical

TRT: 8 MINUTES

"JOJO" celebrates a creative and musical portrait of JoJo Nyaribo, a young nature lover and wildlife advocate as he explores the meaning of biodiversity and stewardship in his own backyard.

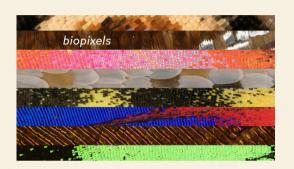

Mel Fell

TRT: 7 MINUTES

One day, when Mama bird is away, Mel decides it is time to learn to fly. She has been in the nest long enough. Despite the fears of her cautious siblings, Mel takes to the sky...and plummets. But while a host of tree-dwelling animals tries to intervene, can Mel master the art of flight?

Biopixels

TRT: 4 MINUTES

Biopixels explores the world of evolutionary biology on the microscopic scale. Using the latest light microscope technology, butterfly wings become micro-mosaics.

Valley of the Turkeys

TRT: 25 MINUTES

Initially unimpressed by the wild turkey, he soon discovers their captivating world.

Following a hen's journey from mating to raising poults, Grasso uncovers the challenges they face in a landscape marked by predation and human intervention. The film highlights the resilience of these seemingly ordinary creatures and encourages viewers to appreciate the hidden stories within nature.

Up and at'Em

TRT: 2 MINUTES

Take a tour of a bustling ecosystem of animal friends as the sun rises on another busy day in Up and At 'Em. Featuring music by Seattle songwriter Eamon Ra.

Flowing - My Dream of More Freedom TRT: 4 MINUTES

Dams, weirs and other obstacles disrupt the natural functioning of rivers and are detrimental to migrating fish, other river wildlife, and ultimately us humans. The good news: We can change this. Obsolete stone and concrete barriers can be removed, thereby helping river ecosystems to bounce back to full vibrating life!

Pond TRT: 9 MINUTES

A shoal of herrings, adopting fantastic formations, roams the vast ocean. When seagulls suddenly attack, one small herring finds itself stranded in a tidal pool. As it searches desperately for a way out, it discovers many other sea creatures here. And now there is no time for fear: only by joining forces can they hope to defend themselves against the hungry seagull.

Kind of Fishy

TRT: 5 MINUTES

There's life in everything - if you just imagine. Just like Danny Driftwood does, as he creates his own underwater world in a bucket; with rocks, sand, leaves - and driftwood. And down here, magic dwells! New friendships, exploration - and, well, also an angry halibut. Can Danny and his two friends trick it and escape?

Return of the Manatees

TRT: 16 MINUTES

Today, manatees are experiencing what scientists call a UME — an unusual mortality event — where some 1000 of them are dying each year; a crisis for a population of only 7000. But citizens in the manatee stronghold of Crystal River have pioneered an approach to restore critical seagrass that now shows promise to help the gentle giants throughout their range.

Turtle Trackers

TRT: 11 MINUTES

Three species of sea turtles nesting along the southeast coast of Florida face a range of threats to their survival. Thanks to conservation measures, greens and loggerheads are thriving, but leatherbacks remain at risk. Researchers know little about them, so they're pioneering ways to study them, and safeguard their habitats.

Bridging Fragments

TRT: 8 MINUTES

Urbanization and deforestation are fracturing the wildlife corridors that preserve biodiversity in tropical rainforests, putting many species at risk, including the world's slowest mammal - the sloth. "Bridging Fragments" explores these stressors in a tropical rainforest community off the Caribbean coast of Costa Rica, where the Sloth Conservation Foundation is helping the local wildlife navigate a disconnected world.

You Are Not Small

TRT: 3 MINUTES

Lucy Hawking, award winning children's book author, and daughter of scientist Stephen Hawking, makes science accessible and engaging through her numerous books. Her latest book series, Princess Olivia Investigates, is about a young girl who would rather be a scientist than a princess. Our film, "You Are Not Small", is inspired by Olivia.
